California Virtual Campus (CVC)

What is a...?

Home College

A California Community College that has completed the necessary technical steps to enable their students to instantly cross-enroll in courses at a Teaching College via the CVC Exchange.

Teaching College

A California Community College that has completed the technical steps allowing students from Home Colleges to instantly cross-enroll in courses via the CVC Exchange.

CVC Exchange: Enrollment Pathways

AUTOMATED PATHWAY

The screenshot shows the Banner Sandbox interface for MATH106 - Developmental Math. The course is listed as a 3-credit online course. The tuition and fees are \$155.00. The course description states it is a developmental math course. The transfer information indicates it has no known transferability to Coastline Community College. The course sections table shows one section for Fall 2020, taught by Huareque Mifanille, with 10 seats left. An 'Add Class' button is highlighted with a red box.

Course Description
The use of probability techniques, hypothesis testing, and predictive techniques to facilitate decision-making. Topics include descriptive statistics, probability and sampling distributions, statistical inference, correlation and linear regression, analysis of variance, chi-square and F-tests, and application of technology for statistical analysis including the integration of the relevance of the statistical findings. Applications using data from disciplines including business, social sciences, psychology, life science, health science, and education. NOTE: Students taking prior courses must log in during the first week of the course or make special arrangements with the instructor to avoid being dropped.

CCC Apply Pathway
into a non-Teaching College

CVC Exchange: *The Student Journey*

Student Cross Enrollment

Cross Enrollment Student Eligibility

Students...

- must be enrolled at a CCC Home College
- consent to share data with the Teaching College
- must have an in-state address
- must have a 2.0+ or no established GPA
- are allowed up to 2 Exchange courses per term
- can register during the Teaching College's open registration

Assembly Bill No. 637

https://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill_id=201720180AB637

Course Finder Overview

- Open to all current and potential CCC students
- Only online courses
- Course and transferability data sourced from assist.org
- Can filter by available seats
- Search for courses filtered by transfer, IGETC, CSU GE or keyword

E-Transcripts

Exchange courses *“shall be accepted for credit at the student’s home college on the same basis as it would be for a student matriculated at the teaching college.”* -AB637

- *HCs are technically enabled to receive TC transcripts via e-Transcripts*
- *E-Transcripts are auto-transferred at the end of each semester / quarter*
- *Students consent to sharing e-Transcripts as a condition for using the Exchange*

Benefits to Students

- Courses available from all of California's Community Colleges
- Find and instantly enroll in courses using a single search
- Expedite degree completion
- Cost is a flat-fee of \$46 / unit
- Combined Federal Aid for eligible students
- Provides ALL students equitable access to online courses and program pathways
- *Counselors can use the Exchange as a valuable education planning tool when working with students*

What about...?

How will students continue receiving services through categorical programs like EOPS, DSPS and CalWORKs?

If students are receiving services from a particular program at their Home College, the Home College is expected to continue providing those services as long as students meet the program's eligibility guidelines. Regarding DSPS, the Home College will provide on-the-ground services and academic accommodations for classes being taught by the Home College. The Teaching College will be required to provide classroom accommodations for the classes being taught at the Teaching College.

What about...?

Will the CVC Exchange platform check and verify that a student is taking courses within their program of study?

The Exchange platform does not perform degree audits, and students are otherwise encouraged to meet with a counselor to ensure that any courses taken through the Exchange align with their Education Plan.

What about...?

Are students enrolling through the Exchange allowed to receive priority enrollment dates at the Teaching College?

No. Exchange students will not receive a priority registration date since students are only allowed to register for Exchange courses during the Teaching College's open registration period.

What about...?

How are prerequisites handled in the Exchange?

When taking courses through the Exchange, students consent to provide proof to the Teaching College of having completed any necessary prerequisites at their Home College. However, a student's full academic record is not currently supplied to the Teaching College at the time of enrollment and registration. College's have approached prerequisites in different ways, depending on the configuration of their respective systems. Some colleges have chosen to hide all prerequisite sections from enrollment through the Exchange. Others enable tentative enrollments that require the student to follow up with the Teaching College's A&R or Counseling departments to provide the required documentation (*in this process, students automatically receive a prompt to do so during the enrollment process*).
